

# PRIMARY SCIENCE SUBSCRIPTION PACKAGE FOR GREATER LINCOLNSHIRE

September 2022 - July 2023

## EXCLUSIVE BENEFITS:

- Three face to face network meetings per year to help drive continuous improvement (worth a total of £180)
- Three core twilight sessions which multiple staff from your school can attend
- Four subject knowledge support twilight sessions which multiple staff from your school can attend
- Exclusive members online community group to gain bespoke professional advice between sessions, share resources and ask questions

**£400 for full membership** (networks, core and subject knowledge twilights)

**£300 for core membership** (networks and core twilights)

**£300 for subject membership** (networks and subject knowledge twilights)

*"Our school signed up for the Science subscription package (2021-2022) and we have found it extremely beneficial, on both a subject leader and individual teacher level. Sessions have been spaced out evenly throughout the year so our whole school teaching team has been able to attend the core sessions and specific phase staff have also attended the meeting which focuses on their year group's curriculum. Running the sessions remotely has made it more accessible for staff to attend and enabled whole school dialogue to take place, as everyone has heard the same information and ideas. A great cost-effective way of providing CPD to all staff."*
